

BEIJING CAPITAL AIRLINES | XI'AN CUSTOMS - NEW REQUIREMENT

Dear Agent,

Please find below the latest notice from Xi'an Customs:

Customs fingertip electronic declaration app has been put into use at Xi'an customs entry. Passengers are required to complete the entry health declaration form in English or Chinese before flight departure (it has been found that many passengers have mistakenly filled out the exit health declaration instead). Landing passengers with health declaration correctly filled will have priority in the disembark.

Passengers must fill in carefully and accurately. If they are filled in incorrectly, it will not be accepted.

Thanks for your support!
