

ETIHAD AIRWAYS | PCR TEST VALIDITY UPDATE

Dear partners

We have updated our policy for passengers holding a ticket for travel on or after **16 May 2021** regarding the PCR test.

This update is as follows:

- The PCR test must be carried out within **72 hours** prior to departure of the first flight.
- In the event that the country of origin or destination applies a more restrictive rule, the latter will apply.

We recommend passengers check in online at [etihad.com](https://www.etihad.com), or via our app up to 30 hours before the flight. Check-in at the airport opens 3 hours prior to departure.

Travel regulations are constantly changing around the world, so we ask all our customers to check [etihad.com/destinationguide](https://www.etihad.com/destinationguide) for the latest recommendations before travelling.

Please visit our dedicated agent website [etihadhub.com](https://www.etihadhub.com) for all our information.
